***Enforcement of District Encroachment Regulation:**

-5020 White Tail, County PMTR2020-00553 has been finialed for what looks like rough driveway, well and utilities. District was not notified of County Permit.

-5745 Silverado, county code enforcement action for early grading. Erosion control installed. owner expected to get county permit for further work. In recent road survey, noted extensive damage to the surface of Silverado. Appears to be deep trailer or equipment scrapes.

-5858 Black Tail, 015-144-015, President McCamy noted substantial grading activity, County has not issued a permit. GM Filed a complaint in February. County website now indicates code enforcement action in progress; CODE2022-00055.

East end of Black Tail, the trail at the end of the road has been providing access to an undeveloped lot that is otherwise landlocked. This access is outside any District Right of Way. Someone, presumably the owner, appears to be illegally living in an RV or other structure. Related to the project at 5825 Black Tail, the access issues to the landlocked parcel(s) will need to be resolved, likely through use of a common driveway agreement. This will also likely result in an enforcement action regarding the person living on undeveloped property.

Other information:

-5645 Forked Horn, owners Bill & Jordana Hug expected to submit permit application and fee for driveway approach improvements. Still nothing yet.

-Justin Sorrentino purchased a lot at 5685 Prancing Deer, wants to build.

All active permits have paid their permit fee of \$1,500.00 and have received a Letter of Acceptance from the District for the county permit staff.

**All award of contracts for work should be done by motion, second and roll call vote*

**It is the practice of the Board to form teams who annually conduct field surveys of the entire road system, including culverts and drainage ways within the GSCSD service area, followed by discussion and prioritization of repairs and/or improvements based on available funds. This process starts in October of each year with the objective of "short listing" proposed projects by the following January through March, weather permitting. After the surveys are complete, the teams compare notes and provide a proposed work schedule based on preliminary budget estimates and the combined results of the road surveys.*

Tax Default Lot for sale

The GM and the board feel that it should be looked at by the board and GM and take some time to think about and see if this is a wise financial choice for the district before making a decision wither or not to decide to buy the lot or not.
